-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 8-11, applicant appears to redefine the dimples. See claim 1 wherein the term "numerous dimples" refers to all the dimples. The "dimples" in claims 8-11 appear to refer to additional dimples not included the "numerous dimples". Claim 9, all edge elements are limited to a circularly arcuate shape in the previous claim. Reciting dimples made from "circularly arcuate" and "rectilinear edges" is confusing and redundant. Claim 10 contradicts the figures, the curvilinear are combined to form "circular" dimples and not "non-circular" dimples.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ogg (6,290,615). Regarding claim 1, Ogg discloses a golf ball comprising a dimples

Art Unit: 3711

formed with a plurality of tubular projections (app's edges). The dimples as viewed from above are non-circular. Regarding claim 2, the tubular projections are identical in size and shape. Regarding claim 3, the cross sections of the projections are circular (fig 5). Regarding claim 4, the cross section of the projection has a radius of from 0.699 to 0.899 inch (col. 6, line 30). Regarding claim 5, the height of the projections is 0.1778 inch (col. 6, line 6).

Allowable Subject Matter

Claims 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raeann Gorden whose telephone number is 571-272-4409. The examiner can normally be reached on M-F 9-5.
